Mercy is making an investment in the future of orthopedic and spine services through the advancement in surgical techniques and education of staff and patients. We serve all ages of our community from all walks of life whether you are a professional athlete, recreational athlete or just want to walk and be active again without pain.

Mercy must keep up with changing technology, extensive use of surgical equipment, offer more minimally invasive procedures, recruit and retain physicians and staff to maintain our standard of excellence. Mercy strives for excellence and honors life of all patients to help create a highly livable, full service community adding vitality and vibrancy to the region.

When a patient is in pain because of joint injury or disease, their entire health is affected because of lack of movement. Mercy has dedicated professionals implementing best practices that ultimately improve each patients experience and clinical outcome. Orthopedic and Spine has been key in helping others have a better, healthier life.

Notable Numbers

- Since its official launch in May of 2007, more than 600 patients have been able to return to the activities they love because of the care they received at Mercy's Orthopedic and Spine Center of Excellence
- Quality outcomes for the Center of Excellence exceed Joint Commission and rank it as one of the nation's top providers
- 95% of patients rated their experience at Mercy's Orthopedic and Spine Center of Excellence as "excellent"
- Patient satisfaction scores reported through independent organizations including HealthStream Research and HCAHPS consistently rank Mercy among the nation's top hospitals
